Ontario Energy
Incentive Program

LED T5/T8 lamps replacements
for existing fixtures

Applications:

LED lamps are available for direct lamp for lamp replacement of T8/T5 fluorescent (no ballast change required) for easy installation. LED tubes are food industry rated and meet shatter proof requirements. Significant energy savings when compared to fluorescent technology with a service life of 80,000 hours. When re-lamping is required these lamps are an excellent choice providing a lower simple payback.

Features:

- The lamp types available include: T5 and T8 Lamps (2ft, 4ft and U-tube), (additional lengths available upon request)
- Available colours ranging from 3000k to 5000k
- Voltage available are 110/277V, 347V
- Rated for up to 80,000 hours operating life
- Energy savings per unit of 65% or more can be achieved (compared to T12 fluorescent)
- Lamps that are cUL listed, DLC Listed
